

BAG WITH WEIGHT

Note: The following themes are just guidelines to help you. You are free to think like an unconventional thinker and come up with great innovations. So do not limit yourselves to these problem statements.

INTRODUCTION

Now a days people have started taking interest in favor of Nature, now the people are making others also aware of global warming and they have started taking initiative to make the environment clean and for this purpose the use of paper bags will be a major step. While we may be accustomed to seeing every bit of our food wrapped in air-tight plastic wrap, food and coffee shouldn't be limited to only plastic. Since they were developed in 1852, paper bags continue to be a popular bagging item, despite the competition from plastic bags. While you may not be able to find them in as many stores as you once could, paper bags continue to be a popular choice for shopping and food items due to the increased durability and their eco-friendly disposition.

OBJECTIVE

- Participants have to make a bag during the fest by using newspapers which can be used to carry some weight.
- You also have to make handle laces on top of your bag.

TEAM SPECIFICATION

- A team may consist of maximum 4 participants.
- Members of a team may be from same Educational Institutes or different (UG or PG)
- Any number of teams can participate from one college
- A team member can't be a part of more than one team in the given competition.

RAW MATERIAL

The following raw material will be provided by us to each team

- Newspapers
- Cello tape
- Stapler
- Scissors
- Small rope for handle
- Additional stationary

ELIGIBILITY

- All students with a valid identity card of their respective educational institutes are eligible to participate.
